Allowable Subject Matter

1. Claims 18, 21-26, 29-34, 36, 38, 41 and 43 are allowable over the prior art.

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter based on Amendment filed on September 13, 2009:

As in claims 18, 21, 26, 29 and 34, the prior art of record fails to teach or fairly suggest that an actuator comprising the following feature: **"at least part of the track coil is in a position closer to the optical axis of the lens member than the outermost end portion of the lens member"**.

As in claim 23 and 31 the prior art of record fails to teach or fairly suggest that an actuator for an optical pickup comprising **"a holding portion that holds a peripheral portion of the lens member, and the holding portion having an outermost diameter smaller than the outermost peripheral edge of the lens member, an opening portion diametrically inside of said holding portion forming an optical path about the optical axis of the lens member"**.

As in claims 24 and 32 the prior art of record fails to teach or fairly suggest that an actuator comprising the following feature: **"a track coil for driving the lens member in a diametrical direction of the lens member inward or outward**

Art Unit: 2627

with respect to the optical disk; a holder positioned to face the optical disk and having a surface that holds a peripheral portion of the lens member from the opposite side of the other surface of the lens member, the holder having an outermost diameter smaller than the outermost peripheral edge of the lens member".

The features indicated above, in combination with the other elements of the claims, are not anticipated by, nor made obvious over, by the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
